

PROJECT SUN STREAK (U)

WARNING NOTICE: INTELLIGENCE SOURCES AND METHODS INVOLVED

## CRV Session Procedures Report (S/NF/SK)

```
|Control Number      : 8702
|
|Date of Session    : 02Feb87
|
|Date of Report     : 02Feb87
|
|Source Identifier  : 018
```

1. (S/NF/SK) Tasking: Monitor granted access to all available tasking data on 28Jan87. (See ops officer files).
2. (S/NF/SK) Session: From a CRV structure perspective, probably the worst session on record for this monitor and source. Source did, however, produce what seemed to be some site-related, pertinent data. (Note: Monitor feels that this source has recently been attempting to work through a very strong PI of impending surgery. Nearly objectifying this PI would not improve his performance).
3. (S/NF/SK) Summary: Source described a group of arranged buildings. When cued with "Building C", source immediately produced the word "incomplete". When asked to Stage 5 this word, source then immediately produced the word "wall". Source perceived a large, open area inside of the building with bluish lighting and much "broken plaster associated with a wall. This "broken plaster" was perceived by source to be more for insulation/protection than for structural purposes.
4. (S/NF/SK) Feedback: None provided source.
